Colourful Woven Alpaca

This weaving craft is such an easy and fantastic way to introduce the art of weaving to children. Plus, you won't need any special materials to try it out.

You will need:

- Scissors
- Cardboard
- Wool
- Marker Pens
- Masking Tape

Optional: small pom-poms

Instructions:

1. Mark out a llama on a piece of cardboard and cut it out.
2. Using marker pens draw a happy face and woolly coat on to the cardboard Alpaca.
3. Snip 5 evenly spaced small slits across the top of your Alpaca's body. Make identical slits at the bottom of the Alpaca's body. You can use a pencil and ruler to line them up. This part of the cardboard Alpaca acts as your loom.
4. Next you will need to create a warp. The warp refers to the strings that run lengthways on a weaving loom. Secure using sticky tape on the back of the cardboard Alpaca a long piece of wool to the first slit on one of the ends of your loom. Carry this piece of wool down the front of the loom to the matching slit at the bottom and bring it back up behind the loom to the second slit, continue until you reach the end of the loom. Tape the ends of the wool to the back of your cardboard Alpaca.
5. Cut a long piece of wool to use for weaving, wrap a piece of tape around the end to make it stiffer and easier to work with. Begin weaving. starting at one end of the loom, weave your wool under and over the warp strings on your loom until the wool runs out. You can change your wool to have multiple colours just tuck or tie the ends at the back.
6. Finish by taping or tying the wool at the back.
7. *Optional: Sew or glue mini pom-poms to decorate your Alpaca's blanket.*
