## It takes a Whole Community to Educate a Child

### TACT (families) 2021 Update

Our Family Learning Team have continued to offer families opportunities to connect with school and one another during the covid-19 pandemic. Families have been able to access our wide range of support workshops through our online programme. To complement the online programme we created seasonally themed booklets and activity packs with a variety of craft, art and cookery activities designed for families to enjoy together. These workshops and activities offered an opportunity to empathise with the experiences that the pandemic has placed upon families and enable us to share ideas, new approaches and offer social, emotional support and signposting for financial support.

Our programme this year has included:

- Weekly online coffee mornings.
- Managing Anxiety parent support online workshops.
- Coping strategies for challenging behaviour online workshop.
- Financial support online workshop.
- Lockdown activities online workshop.
- Phonics online workshop.
- Eagles family learning activity packs.
- New intake support (reception) packs kindly funded by The Rotary club of Aylsham.
- Termly family learning activity booklets including a community Christmas project.

Through our adult learning programme we were delighted that five adult students successfully achieved a GCSE maths pass.

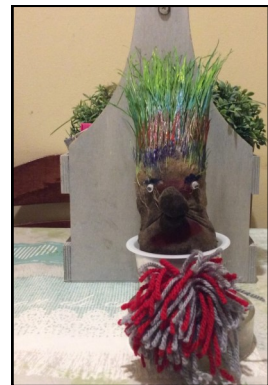

Our Parent Support Advisor has been available throughout the whole pandemic to support families with issues or concerns from home or school.

## 2020 Christmas Decoration Project

During the cold dark month of December families created handmade Christmas decorations which were used to decorate Christmas trees outside each school. This project was welcomed enthusiastically by everyone spreading light and Christmas cheer throughout the whole community.

## Eagles Activity Packs

It was fabulous to hear from Eagles families that they had thoroughly enjoyed making and eating their own delicious pizzas and been inspired to do more cooking together at home. The grass heads were amazing and created endless amusing possibilities for design and even colourful hair styles! Their termly packs included the resources and instructions for making healthy breakfast bars, rock art, stress balls and chocolate Easter nests.
